#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees South Sunflower County Hospital Indianola, Mississippi

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of South Sunflower County Hospital (the "Hospital"), a component unit of Sunflower County, Mississippi, as of and for the years ended September 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the Hospital's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Hospital, as of September 30, 2019 and 2018, and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 and the Schedule of Employer Contributions and Proportionate Share of Net Pension Liability on page 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Hospital's basic financial statements. The Schedule of Surety Bonds for Officers and Employees on page 32 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Surety Bonds for Officers and Employees has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2020, on our consideration of the Hospital's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Hospital's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Hospital's internal control over financial reporting and compliance.

Ridgeland, Mississippi January 29, 2020

HORNE LLP

Years Ended September 30, 2019 and 2018

This section of South Sunflower County Hospital's ("Hospital") annual financial report presents background information and our analysis of the Hospital's financial performance during the fiscal years ended on September 30, 2019 and 2018. Please read it in conjunction with the financial statements in this report.

#### 2019

#### FINANCIAL HIGHLIGHTS

#### Fiscal Year Ended September 30, 2019

The Hospital's total net position increased \$199,277 or approximately 4.3 percent from the prior year. This increase results from the recognition of revenues in excess of expenses (increase in net position).

At the end of the 2019 fiscal year, the assets and deferred outflows of the Hospital exceeded liabilities and deferred inflows by \$4,880,593. Of this amount, \$(9,106,022) represents an unrestricted deficit net position, \$10,938,218 is invested in capital assets and \$3,048,397 is designated for use in the Hospital's self-insurance programs. The Hospital established a self-insurance fund in accordance with the requirements of the Mississippi Tort Claims Board.

Net patient service revenue increased by \$931,528, or 3.8 percent, from the prior year. This is due to an increase in outpatient and inpatient utilization and clinic visits. During this same period, operating expenses also increased by \$1,500,125 or 6.0 percent from the prior year. This increase is due to an increase in salaries and wages. These increases will be further discussed in the Operating and Financial Performance section of this analysis.

#### Fiscal Year Ended September 30, 2018

The Hospital's total net position decreased \$228,779 or approximately 4.7 percent from the prior year. This decrease results from the recognition of expenses in excess of revenues (decrease in net position).

At the end of the 2018 fiscal year, the assets and deferred outflows of the Hospital exceeded liabilities and deferred inflows by \$4,681,316. Of this amount, \$(8,990,926) represents an unrestricted deficit net position, \$10,829,864 is invested in capital assets and \$2,842,378 is designated for use in the Hospital's self-insurance programs. The Hospital established a self-insurance fund in accordance with the requirements of the Mississippi Tort Claims Board.

Net patient service revenue increased by \$1,510,437, or 6.5 percent, from the prior year. This is due to an increase in outpatient and inpatient utilization and clinic visits. During this same period, operating expenses also increased by \$806,967 or 3.3 percent from the prior year. This increase is due to an increase in salaries and wages. These increases will be further discussed in the Operating and Financial Performance section of this analysis.

Years Ended September 30, 2019 and 2018

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of four components - the Management's Discussion and Analysis of Financial Condition and Operating Results (this section), the Independent Auditor's Report, the Financial Statements and Supplementary Information.

The financial statements of the Hospital report the financial position of the Hospital and the results of its operations and its cash flows. The financial statements are prepared on the accrual basis of accounting. These statements offer short-term and long-term financial information about the Hospital's activities.

The statements of net position include all of the Hospital's assets, deferred outflows, liabilities and deferred inflows and provide information about the nature and amounts of investments in resources (assets) and the obligations to the Hospital's creditors (liabilities) for both the current year and the prior year. It also provides the basis for evaluating the capital structure of the Hospital, and assessing the liquidity and financial flexibility of the Hospital.

All of the current year's revenues and expenses are accounted for in the statements of revenue, expenses and changes in net position. These statements measure the performance of the Hospital's operations over the past year and can be used to determine whether the Hospital has been able to recover all of its costs through its patient service revenue and other revenue sources.

The primary purpose of the statements of cash flows is to provide information about the Hospital's cash from operating, investing and financing activities. The statements of cash flows outline where the cash comes from, what the cash is used for and the changes in the cash balance during the reporting period.

The annual report also includes notes to financial statements that are essential to gain a full understanding of the data provided in the financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

Following the notes to financial statements is a section containing supplementary information that further explains and supports the information reported in the financial statements. This section includes optional schedules showing gross patient service revenue and operating expenses by department.

Years Ended September 30, 2019 and 2018

#### FINANCIAL ANALYSIS OF THE HOSPITAL

The statements of net position and the statements of revenues, expenses and changes in net position report information about the Hospital's activities. Increases or improvements, as well as decreases or declines in the net position, are one indicator of the financial state of the Hospital. Other non-financial factors that should also be considered include changes in economic conditions, population growth (including uninsured and working poor) and new or changed government legislation.

#### **Net Position**

A summary of the Hospital's statements of net position is presented in the following table:

	Fiscal Year 2019	Fiscal Year 2018	Fiscal Year 2017
Current and other assets Capital assets, net	\$ 20,396,602 11,065,468	\$ 18,279,841 11,080,455	\$ 18,199,749 11,227,182
Total assets	 31,462,070	29,360,296	29,426,931
Deferred outflows of resources	 1,288,658	1,044,247	1,044,485
Long-term debt outstanding Other liabilities Net pension liability	 127,250 5,180,313 22,294,659	250,591 4,131,499 20,827,806	395,165 4,491,989 19,734,628
Total liabilities	 27,602,222	25,209,896	24,621,782
Deferred inflows of resources	 267,913	513,331	939,539
Net invested in capital assets Restricted Unrestricted	 10,938,218 3,048,397 (9,106,022)	10,829,864 2,842,378 (8,990,926)	10,832,017 2,875,111 (8,797,033)
Total net position	\$ 4,880,593	\$ 4,681,316	\$ 4,910,095

#### Fiscal Year Ended September 30, 2019

Total assets increased by \$2,101,774 in 2019. The most significant component in the change in the Hospital's assets for 2019 was an increase in cash and cash equivalents of \$748,708.

Total liabilities increased \$2,392,326 in 2019, which is primarily attributable to the increase in the net pension liability and accrued salaries and wages.

Years Ended September 30, 2019 and 2018

#### Fiscal Year Ended September 30, 2018

Total assets decreased by \$66,635 in 2018. The most significant component in the change in the Hospital's assets for 2018 was an increase in patient accounts receivable of \$438,686.

Total liabilities increased \$588,114 in 2018, which is primarily attributable to the increase in the net pension liability.

#### **Summary of Revenue and Expenses**

The following table presents a summary of the Hospital's historical revenues and expenses and changes in net position for each of the fiscal years ended September 30, 2019, 2018 and 2017:

	Fiscal Year 2019	Fiscal Year 2018	Fiscal Year 2017
Net patient service revenue Other operating revenue	\$ 25,594,069 5 524,259	\$ 24,662,541 \$ 295,874	23,152,104 320,478
Total operating revenues	26,118,328	24,958,415	23,472,582
Salaries and benefits Depreciation and amortization Professional fees, supplies and maintenance Total operating expenses	 15,718,182 752,733 10,122,924 26,593,839	14,647,711 677,095 9,768,908 25,093,714	14,093,372 562,721 9,630,654 24,286,747
Loss from operations	(475,511)	(135,299)	(814,165)
Nonoperating revenues (expenses) Investment income (loss) Interest expense	681,231 (6,443)	(82,317) (11,163)	(990) (15,586)
Increase (decrease) in net position	\$ 199,277	\$ (228,779) \$	(830,741)

#### **Operating Revenues**

#### Fiscal Year Ended September 30, 2019

The Hospital derived 98.0 percent of its total operating revenues from net patient service revenues. Such revenues include revenues from the Medicare and Medicaid programs, patients or their third-party carriers who pay for care in the Hospital's facilities.

#### Fiscal Year Ended September 30, 2018

The Hospital derived 98.8 percent of its total operating revenues from net patient service revenues. Such revenues include revenues from the Medicare and Medicaid programs, patients or their third-party carriers who pay for care in the Hospital's facilities.

Years Ended September 30, 2019 and 2018

The following table represents the relative percentage of gross charges billed for patient services by payor for the fiscal years ended September 30, 2019, 2018 and 2017:

	Fiscal Year 2019	Fiscal Year 2018	Fiscal Year 2017
Medicare	44%	43%	46%
Medicaid	26	27	27
Commercial	19	17	17
Other	11	13	10
Total gross charges	100%	100%	100%

#### OPERATING AND FINANCIAL PERFORMANCE

The following summarizes changes in the Hospital's statements of revenues, expenses and changes in net position between 2019 and 2018:

#### Fiscal Year Ended September 30, 2019

- Total admissions decreased from previous year, and there was a decrease in total patient days. The Hospital patient days and admissions are 4,830 and 940, respectively. This is a decrease of 2.3 percent and 9.6 percent, respectively, from 2018.
- Net patient service revenues increased as stated in the financial highlights. Operating expenses increased as a result of an increase in self-funded medical claims paid. Gross patient service revenue increased to \$44,721,605 from \$44,621,322 in the prior year.
- Salaries and wages and employee benefits expense increased \$1,070,471 or 7.3 percent from the prior year.
- Investment income increased \$763,548 from prior year due to increase in the market.

#### Fiscal Year Ended September 30, 2018

- Total admissions increased from previous year, and there was an increase in total patient days. The Hospital patient days and admissions are 4,946 and 1,040, respectively. This is an increase of 21.8 percent and 15.8 percent, respectively, from 2017
- Net patient service revenues increased as stated in the financial highlights. Operating expenses increased as a result of an increase in FTEs. Gross patient service revenue increased to \$44,621,322 from \$38,285,888 in the prior year.
- Professional fees, supplies and maintenance and utility expense increased \$138,254 or 1.4 percent from the prior year.
- Investment income decreased \$81,327 from prior year due to decrease in the market.

#### **CASH FLOWS**

Changes in the Hospital's cash flows are consistent with changes in operating income losses and changes in net position discussed earlier.

Years Ended September 30, 2019 and 2018

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

While the annual budget of the Hospital is not presented within these financial statements, the Hospital's Board and management considered many factors when setting the fiscal year 2019 budget. While the financial outlook for the Hospital is stable, of primary importance in setting the 2019 budget is the status of the economy and the healthcare environment, which takes into account market forces and environmental factors such as:

- Medicare reimbursement changes,
- Increased number of uninsured and working poor,
- · Ongoing competition for services,
- Workforce shortages primarily in nursing and other clinically skilled positions,
- Cost of supplies, including pharmaceuticals,
- Impact of Healthcare Reform as it relates to reimbursement and employee health insurance coverage, and potential repeals or replacements due to political changes.

#### CONTACTING THE HOSPITAL FINANCIAL MANAGER

This financial report is designed to provide our citizens, customers and creditors with a general overview of the Hospital's finances. If you have any questions about this report or need additional financial information, please contact the Hospital's Business office at South Sunflower County Hospital, 121 Baker Street, Indianola, MS 38751.

#### NOTES TO FINANCIAL STATEMENTS

#### Note 1. Nature of Operations, Reporting Entity and Summary of Significant Accounting Policies

#### Nature of Operations and Reporting Entity

South Sunflower County Hospital (the "Hospital") is a public hospital created to serve the medical needs of Indianola, Mississippi, and the surrounding area established by Sunflower County ("the County") as a special purpose government entity under the laws of the State of Mississippi. The Hospital is owned by Sunflower County and is governed by a Board of Trustees pursuant to Sections 41-13-15 et. Seq. of Mississippi Code of 1972, as amended. Because of the relationship between the Hospital and Sunflower County, the Hospital has been defined as a component unit of the County.

The Hospital provides inpatient, outpatient and emergency care services primarily for residents of the County and the surrounding area. Admitting physicians are primarily practitioners in the same area. The Hospital is currently licensed to operate 49 inpatient beds.

#### **Budgetary Information**

The Hospital is required by statute of the State of Mississippi to prepare a non-appropriated annual budget. The budget is not subject to appropriation and is therefore not required to be presented as supplementary information.

The significant accounting policies used by the Hospital in preparing and presenting its financial statements are as follows:

#### **Basis of Accounting**

The Hospital prepares its financial statements as a business-type activity in conformity with the applicable pronouncements of the Governmental Accounting Standards Board ("GASB"). The accompanying financial statements of the Hospital have been prepared on the accrual basis of accounting using the economic resources measurement focus.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most sensitive estimates included in these financial statements relate to contractual discounts under third-party contracts and the allowance for uncollectible accounts.

#### Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less.

#### Patient Receivables

Patient receivables are reported at net realizable value, after deduction of allowances for estimated uncollectible accounts and third-party contractual discounts. The allowance for uncollectible accounts is based on historical losses and an analysis of currently outstanding amounts. This

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 1. Continued

account is generally increased by charges to a provision for uncollectible accounts, and decreased by write-offs of accounts determined by management to be uncollectible. The allowances for third-party contractual discounts are based on the estimated differences between the Hospital's established rates and the actual amounts to be received under each contract. Changes in estimates by material amounts are reasonably possible in the near term.

#### **Inventories**

Inventories, which consist primarily of medical supplies and drugs, are stated at cost based on the first-in, first-out method, or at market, whichever is lower.

#### **Prepaid Expenses**

Prepaid expenses are amortized over the estimated period of future benefit, generally on a straightline basis.

#### **Noncurrent Investments**

Noncurrent investments include assets set aside by the Board of Trustees for future capital improvements as well as assets externally restricted for use in its self-insurance program. The Board retains control of the funds set aside for future capital improvements and may, at its discretion, subsequently use them for other purposes.

The Hospital's investments consist of external investment pools and are carried at fair value. Interest, dividends and gains and losses on investments, both realized and unrealized, are included in non-operating income when earned.

#### Capital Assets, Net

Capital asset acquisitions are recorded at cost, if purchased, or at fair value at the date of the gift, if donated. Depreciation is provided over the estimated useful life for each class of depreciable asset and is computed using the straight-line method.

Assets under capital lease obligations are recorded at the lower of the net present value of the minimum lease payments or the fair value of the leased asset, and are amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the assets. Such amortization is included in depreciation and amortization in the financial statements.

Management evaluates assets for potential impairment when a significant, unexpected decline in the service utility of a capital asset occurs.

#### Long-Term Notes Receivable

The Hospital has entered into various agreements with physicians and nurses, specifically to benefit the Hospital's community service area. These agreements include income guarantees and other advances, all of which are generally conditioned upon a service commitment to the community. Advances under these agreements are forgiven upon fulfillment of the professional's contractual

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 1. Continued

service commitment but are due in full if such commitment is not fulfilled. Advances under these arrangements are amortized to expense using the straight-line method over the related commitment period. Amounts expected to be amortized in the ensuing fiscal year are classified as a current asset in the accompanying statements of net position.

#### **Impairment of Long-Lived Assets**

Long-lived assets and certain identifiable intangibles are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount of fair value less costs to sell.

#### **Pensions**

The Hospital follows the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions ("GASB 68") on the statements to recognize the net pension liability, deferred outflows and deferred inflows of resources, pension expense, and information about and changes in the fiduciary net position on the same basis as reported by the respective defined benefit pension plans. The Hospital recognizes benefit payments when due and payable in accordance with benefit terms. Invested assets are reported at fair value. More information on pension activity for the Hospital is included in Note 5.

#### Compensated Absences

The Hospital employees can accumulate earned time off, which is vested with the employee and upon termination is payable under certain circumstances. All vested compensated absences are recorded as of the statements of net position date.

#### **Estimated Malpractice Costs**

The Hospital considers the need for recording a liability for malpractice claims. The provision for estimated malpractice claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

#### **Net Position**

Net position consists of net investment in capital assets; restricted and unrestricted. The net investment in capital assets consists of capital assets net of accumulated depreciation and the outstanding balance of any related debt that is attributable to the acquisitions of the capital assets.

Restricted are those resources that are externally restricted by creditors, grantors, contributors or laws and regulations or those restricted by constitutional provisions and enabling legislation. Unrestricted net position consists of resources that do not meet the definition of invested in capital assets, net of related debt or restricted. When both restricted and unrestricted resources are available to finance particular programs, it is the Hospital's policy to use the restricted resources before using the unrestricted resources.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 1. Continued

#### Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments. Patient service revenue is reported at estimated net realizable amounts from patients, third-party payors and others for services rendered and includes estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are considered in the recognition and accrual of revenue on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

The primary third-party programs include Medicare and Medicaid, which account for a significant amount of the Hospital's revenue. The laws and regulations under which Medicare and Medicaid programs operate are complex and subject to interpretation and frequent changes. As part of operating under these programs, there is a possibility that government authorities may review the Hospital's compliance with these laws and regulations. Such reviews may result in adjustments to program reimbursement previously received and subject the Hospital to fines and penalties. Management believes it has complied with the requirements of these programs.

#### **Charity Care**

The Hospital provides medical care without charge or at a reduced charge to patients who meet certain criteria under its charity care policy. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, these charges are not reported as revenue.

#### Operating Revenue and Expenses

The Hospital's statements of revenues, expenses and changes in net position distinguish between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing healthcare services, which is the Hospital's principal activity. Nonexchange revenues, including grants and contributions received for purposes other than capital asset acquisition and interest income are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide healthcare services, other than financing costs.

#### **Income Taxes**

The Hospital is a governmental entity and, as such, is exempt from federal and state income taxes.

#### New Accounting Standards Adopted

Governmental Accounting Standards Board Statement No. 88 ("GASB 88")

The Hospital adopted GASB 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, in fiscal year 2019. This statement requires additional information related to debt be disclosed in the notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default or termination with finance-related consequences and significant acceleration clauses. The adoption of this statement did not have a significant impact on the financial statements of the Hospital.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 1. Continued

#### Accounting Pronouncements Issued Not Yet Adopted

Governmental Accounting Standards Board Statement No. 84 ("GASB 84")

The Hospital will adopt GASB 84, *Fiduciary Activities*, in fiscal year 2020 with any changes applied retroactively. This statement is meant to provide guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes. Fiduciary activities meeting certain criteria (i.e. pension and other employee benefit trust funds, investment trust funds, private-purpose trust funds, and custodial funds) will now be reported in a fiduciary fund as part of the basic financial statements. The Hospital is currently assessing the impact of the adoption of this GASB and its effect on the Hospital's financial position or results of operations.

Governmental Accounting Standards Board Statement No. 87 ("GASB 87")

The Hospital will adopt GASB 87, Leases, in fiscal year 2021 with any changes applied retroactively. This statement will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. Under this statement, all leases are required to be recognized as assets and liabilities with associated deferred inflows and outflows of resources on the financial statements. Furthermore the statement defines a lease and details the considerations for determining the lease term. The Hospital is currently assessing the impact of the adoption of this GASB and its effect on the Hospital's financial position or results of operations.

Governmental Accounting Standards Board Statement No. 89 ("GASB 89")

The Hospital will adopt GASB 89, Accounting for Interest Cost Incurred before the End of a Construction Period, in fiscal year 2021. This statement will improve financial reporting by (1) enhancing the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period, and (2) simplifying accounting for interest cost incurred before the end of a construction period. This statement will supersede GASB 62, requiring that interest cost incurred before the end of a construction period to be recognized as an expense in the period in which the cost was incurred. The Hospital is currently assessing the impact of the adoption of this GASB and its effect on the Hospital's financial position or results of operations.

#### Note 2. Cash Deposits and Investments

#### **Deposits**

Custodial credit risk is the risk that, in the event of a bank failure, the Hospital's deposits might not be recovered. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the Hospital's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation ("FDIC"). All deposits with financial institutions must be collateralized in an amount equal to 105 percent of uninsured deposits and are therefore fully insured. At September 30, 2019, the carrying amount of the Hospital's deposits was \$4,204,219 and the bank balances totaled \$4,415,144.

Years Ended September 30, 2019 and 2018

#### **NOTES TO FINANCIAL STATEMENTS**

#### Note 2. Continued

#### **Investments**

The statutes of the State of Mississippi restrict the authorized investments of the Hospital to obligations of the U. S. Treasury, agencies and instrumentalities of the United States and certain other types of investments. The Mississippi Hospital Association ("MHA") investment pool is the result of an amendment to the Mississippi Code of 1972 passed in the 1999 and 2000 sessions of the Mississippi Legislature. This law expanded the investment options and permits the pooling of hospital funds. All Mississippi hospitals are allowed to participate in these funds. Pooled funds are invested in authorized investments and are managed by approved investment advisors. The Hospital's investments consist of the following external investment pool funds at September 30:

	2019	2018
MHA Duration Trust		
Fixed Income		
Intermediate duration trust	\$ 9,170,452	\$ 8,550,579
Short duration trust	 925,296	875,217
Total MHA Duration Trust	\$ 10,095,748	\$ 9,425,796

The external investment pools do not have a credit rating on the overall pool and they are not insured.

The Hospital does not have a formal policy that limits investment maturities as a means of managing the exposure to fair value losses arising from increasing interest rates.

Note 3. Capital Assets

A summary of capital assets at September 30, 2019 is set forth below:

	2019	2018
Land and improvements Buildings and improvements Fixed equipment Major moveable equipment Vehicles	\$ 784,213 16,652,920 280,384 15,354,801 33,611	\$ 676,483 16,613,759 280,384 14,763,946 33,611

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 2. Continued

Depreciation expense for the years ended September 30, 2019 and 2018 totaled \$752,733 and \$677,095, respectively. Capitalized lease equipment and related accumulated amortization was \$663,223 and \$509,997, respectively at September 30, 2019. Capitalized lease equipment and related accumulated amortization was \$663,223 and \$391,021, respectively at September 30, 2018.

Capital asset additions, retirements and balances for the year ended September 30, 2019 were as follows:

	Balance September 30,		_	Balance September 30,
	2018	Increases	Decreases	2019

#### Note 4. Leases

The Hospital was obligated under several capital leases at September 30, 2019 at varying interest rates ranging from 2.99 percent to 10.66 percent. Scheduled payments on capital lease obligations are as follows:

Year Ending September 30,	Principal	Interest
2020 2021	\$ 94,961 32,289	\$ 2,319 435
	\$ 127,250	\$ 2,754

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 4. Continued

A schedule of changes in the Hospital's capital lease obligation balances for the years ended September 30, 2019 and 2018 follows:

	Se	Balance eptember 30	,			;	Balance September 30,	٧	Due Vithin One
		2018		Additions	Retirements		2019		Year
Capital lease obligations	\$	250,591	\$	-	\$ 123,341	\$	127,250	\$	94,961
	Se	Balance eptember 30 2017	,	Additions	Retirements	;	Balance September 30, 2018	٧	Due Vithin One Year
Capital lease obligations	\$	395,165	\$	-	\$ 144,574	\$	250,591	\$ :	123,025

The Hospital leases a physician clinic under an operating lease expiring March 31, 2023. Total rental expense for each of the years ended September 30, 2019 and 2018 was \$339,744 and \$324,872, respectively.

The following is a schedule, by year of expiration, of the approximate future minimum lease payments under non-cancelable operating leases as of September 30, 2019 that have initial or remaining lease terms in excess of one year:

Year Ending September 30,	Amount
2020	\$ 339,744
2021	339,744
2022	339,744
2023	 169,872
	\$ 1,189,104

#### Note 5. Pension Plan

#### Plan Description

The Hospital contributes to the Public Employees' Retirement System of Mississippi ("PERS"), a cost-sharing multiple-employer defined benefit pension plan.

PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS administers a cost-sharing, multiple employer defined benefit pension plan as defined in GASB 67, *Financial Reporting for Pensions*.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 5. Continued

#### **Benefits Provided**

For the cost-sharing plan, participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2,50 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

#### Contributions

Hospital employees, as members of PERS, are required to contribute 9 percent of their annual covered salary, and the Hospital is required to contribute at an actuarially determined rate. The rate contributed by the Hospital was 17.40 percent and 15.75 percent of annual covered payroll as of September 30, 2019 and 2018, respectively. Combined contributions are expected to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Hospital's contributions to PERS for each of the years ended September 30, 2019 and 2018, were approximately \$1,359,000 and \$1,283,000, respectively, and were equal to the required contributions for each year.

#### **Vesting Period**

In 2007, the Mississippi Legislature amended PERS to change the vesting period from four to eight years for members who entered the system after July 1, 2007. Members who entered PERS prior to July 1, 2007 are still subject to the four year vesting period provided that those members do not subsequently withdraw their account balance.

#### **Net Pension Liability**

At September 30, 2019 and 2018, the Hospital reported a liability of \$22,294,659 and \$20,827,806, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019 and 2018 for fiscal years ended September 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The Hospital's proportion of the net pension liability was based on a projection of the Hospital's long-term share of contributions to the pension plan relative to the projected contributions of all participating PERS members, actuarially determined. At September 30, 2019 and 2018, the Hospital's proportion was 0.126732 percent and 0.125220 percent, respectively.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 5. Continued

For the years ended September 30, 2019 and 2018, the Hospital recognized pension expense of \$2,336,431 and \$1,956,942, respectively, which is included in employee benefits in the accompanying financial statements. Certain changes in actuarial assumptions impacted 2019 pension expense and the related deferred outflows and inflows including the following: In 2019, the expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 112 percent of male rates from ages 18 to 75 scaled down to 105 percent for ages 80 to 119. For females, 85 percent of the female rates from ages 18 to 65 scaled up to 102 percent for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy. The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree with some adjustments, such as, for males, 137 percent of male rates at all ages; for females, 115 percent of female rates at all ages; and projection scale MP-2018 will be used to project future improvements in life expectancy generationally. In 2019, the price inflation assumption was reduced from 3.00 percent to 2.75 percent, and the wage inflation assumption was reduced from 3.25 percent to 3.00 percent. In 2019, withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience. Also in 2019, the percentage of active member disabilities assumed to be in the line of duty was increased from 7.00 percent to 9.00 percent. The differences between expected and actual pension experience and the changes in proportionate share of net pension liability and the change of assumptions is being amortized over a closed period of 3.76, 3.72, 3.48, and 3.37 for the years 2016, 2017, 2018 and 2019, respectively. Differences between projected and actual earnings on pension plan investments are amortized over a closed period of five years.

At September 30, 2019 and 2018, the Hospital reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2019	2018
Deferred outflows of resources Pension contributions subsequent to measurement date Difference between expected and actual experience Changes of assumptions Changes in proportionate share of net pension liability	\$ 397,447 13,188 218,578 659,445	\$ 346,360 91,307 12,288 594,292
Total deferred outflows of resources	\$ 1,288,658	\$ 1,044,247
Deferred inflows of resources  Net difference between projected and actual earnings on pension plan investments  Difference between expected and actual experience Changes of assumptions	\$ 243,915 23,998 -	\$ 414,029 87,799 11,503
Total deferred inflows of resources	\$ 267,913	\$ 513,331

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 5. Continued

In the years ended September 30, 2019 and 2018, respectively, \$397,447 and \$346,360 reported as deferred outflows of resources related to pensions resulting from the Hospital's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as an expense in pension expense/(benefit) as follows:

2020	\$ 430,384
2021	(26,954)
2022	118,085
2023	 101,783
	\$ 623,298

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75 percent

Salary Increase 3.00 – 18.25 percent, average, including inflation 7.75 percent, net of pension plan investment expense,

including inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table, with the following adjustments: For males, 112 percent of male rates from ages 18 to 75 scaled down to 105 percent for ages 80 to 119. For females, 85 percent of the female rates from ages 18 to 65 scaled up to 102 percent for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2017 to June 30, 2018.

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00 percent

Salary Increase 3.75 – 18.50 percent, average, including inflation 7.75 percent, net of pension plan investment expense,

including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, with males rates set forward one year.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 5. Continued

The long-term expected rate of return on pension plan investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	27%	4.90%
International equity	22%	4.75%
Global equity	12%	5.00%
Fixed income	20%	1.50%
Real estate	10%	4.00%
Private equity	8%	6.25%
Cash	1%	0.25%
Total	100%	<u> </u>

#### **Discount Rate**

The discount rate used to measure the total pension liability at September 30, 2019 and 2018 was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate (9.00 percent) and that contributions from the Hospital will be made at contractually required rates (17.40 percent). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 5. Continued

Sensitivity of the Hospital's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following tables present the Hospital's proportionate share of the net pension liability as of September 30, 2019 and 2018, calculated using the discount rate of 7.75 percent, as well as what the Hospital's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
2019 Hospital's proportionate share of the net pension liability	\$ 29,307,102	\$ 22,294,659	\$ 16,506,517
	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
2018 Hospital's proportionate share of the net pension liability	\$ 27,424,244	\$ 20,827,806	\$ 15,345,295

#### Plan Fiduciary Net Position

PERS issues a publicly available financial report that includes financial statements and required supplementary information. This information may be obtained by contacting PERS by mail at 429 Mississippi Street, Jackson, MS 39201, by phone at 1-800-444-7377 or by website at www.pers.ms.gov. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

#### Note 6. Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

#### **Medicare**

Inpatient acute, swingbed, outpatient and home health services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors.

Medicare bad debts and disproportionate share payments are paid at a tentative rate with final settlement determined after submission of annual costs and audits thereof by the fiscal intermediary.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 6. Continued

#### Medicaid

Inpatient services rendered to Medicaid program beneficiaries are reimbursed based upon a prospective reimbursement methodology known as an APR-DRG system. Outpatient services rendered to Medicaid program beneficiaries are reimbursed based upon a prospective reimbursement methodology known as an APC system.

Revenue from the Medicare and Medicaid programs accounted for approximately 44 percent and 26 percent, respectively, of the Hospital's gross patient service revenue for the year ended 2019. During 2018, revenue from Medicare and Medicaid programs accounted for 43 percent and 27 percent, respectively, of the Hospital's gross patient service revenue. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. The Hospital's cost reports have been settled through 2016.

The Hospital participates in the Mississippi Intergovernmental Transfer Program as a Medicaid Disproportionate Share Hospital ("DSH") and in the Medicaid Upper Payment Limit Program ("UPL"). Under these programs, the Hospital receives enhanced reimbursement through a matching mechanism.

Beginning with the state fiscal year 2016, July 1, 2015, UPL payments were phased out and the Division of Medicaid ("DOM") implemented the Mississippi Hospital Access Payment ("MHAP") program (the "MHAP Program") in its place. The MHAP Program is administered by the DOM through the Mississippi CAN coordinated care organizations ("CCO"). The CCOs subcontract with the hospitals throughout the state for distribution of the MHAP for the purpose of protecting patient access to hospital care. The MHAP Program began December 1, 2015 and the MHAP payments and associated tax are distributed and collected in equal monthly installments. For the fiscal years ended September 30, 2019 and 2018, the Hospital received approximately \$4,183,473 and \$4,176,582, respectively, from the MHAP program. MHAP amounts are shown as a reduction of contractual adjustments with related tax assessment of \$414,054 and \$569,750, respectively, for the years ended September 30, 2019 and 2018, recorded in an addition to contractual adjustments.

#### Managed Care

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

A summary of gross and net patient service revenue for the years ended September 30, 2019 and 2018 follows:

	2019	2018
Gross patient service revenue	\$ 44,721,605	\$ 44,621,322
Less provisions for Contractual adjustments under third-party reimbursement programs and other deductions Provision for bad debts	 14,357,902 4,769,634	15,396,320 4,562,461
Net patient service revenue	\$ 25,594,069	\$ 24,662,541

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 7. Insurance Programs

#### Risk Management

The Hospital is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters and employee health, dental and accident benefits. Commercial liability insurance is purchased for most of these risks. However, employee health insurance and certain general and professional liability risks are self-funded as further explained below. The Hospital has accrued for the estimate of self-funded claims.

#### Self-Funded Health Insurance

The Hospital provides health insurance coverage to its employees under a self-funded plan. Health claims are paid by the Hospital as they are incurred and filed by the employee. An estimated liability for claims incurred but not reported or paid is included in other accrued expenses and operating expenses in the financial statements.

The claims liability at September 30, 2019 and 2018 is based on the requirements of GASB, which requires that liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the Hospital's claims liability amount in fiscal years 2019 and 2018 were:

			Current				
Fiscal Year	October 1, Claims Liability		Year Claims and Changes in Estimates	Current Year Payments		September 30, Claims Liability	
2019	\$ 132,637	\$	1,867,484	\$	(1,845,124)	\$	154,997
2018	\$ 95,536	\$	1,519,236	\$	(1,482,135)	\$	132,637

#### Medical Malpractice Program

The Hospital maintains a professional and general liability insurance program under a self-funded plan. At year-end, the Hospital accrues for the estimate of losses for malpractice claims outstanding.

As of September 30, 2019 and 2018, this accrual totaled \$1,998,599 and \$1,726,120, respectively. The future assertion of claims for occurrences prior to year-end is reasonably possible and may occur, although is not anticipated.

Changes in the Hospital's claims liability amount, including related legal fees, for the years 2019 and 2018 were as follows:

	October 1, Claims	Current Year Claims and Changes	Current Year	September 30, Claims		
Fiscal Year	Liability	n Estimates	Payments		Liability	
2019	\$ 1,726,120	\$ 468,679	\$ (196,200)	\$	1,998,599	
2018	\$ 1,690,990	\$ 285,130	\$ (250,000)	\$	1,726,120	

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 7. Continued

The Mississippi Tort Claims Act provides a cap on the amount of damages recoverable against government entities, including governmental medical centers. For claims filed, the amount recoverable is the greater of \$500,000 or the amount of liability insurance coverage that has been retained.

#### Note 8. Concentrations of Credit Risk

#### Patient Receivables

The Hospital grants credit without collateral to its patients, most of who are local residents and are insured under third-party payor agreements. The percentage mix of net patient receivables from patients and major third-party payors at September 30, 2019 and 2018, was as follows:

	2019	2018
Medicare	23%	28%
Medicaid	24	21
Commercial insurance	23	20
Other	30	31
Total	100%	100%

#### Note 9. Fair Value

The Hospital's investments are recorded at fair value as of September 30, 2019 and 2018. GASB Statement No. 72, Fair Value Measurement and Application, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumption about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

- Level 1 Investments whose values are based on quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 Investments with inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 Investments classified as Level 3 have unobservable inputs for an asset or liability and may require a degree of professional judgment.

Years Ended September 30, 2019 and 2018

#### NOTES TO FINANCIAL STATEMENTS

#### Note 9. Continued

The following table represents the Hospital's investments within the fair value hierarchy at September 30, 2019:

	 Fair Value Measurements at September 30, 2019									
	 (Level 1)		(Level 2)		(Level 3)		Total			
Investments										
MHA duration trust										
Intermediate duration trust	\$ -	\$	9,170,452	\$	-	\$	9,170,452			
Short duration trust	 -		925,296		-		925,296			
Total	\$ -	\$	10,095,748	\$	-	\$	10,095,748			

The following table represents the Hospital's investments within the fair value hierarchy at September 30, 2018:

	 Fair Value Measurements at September 30, 2018									
	 (Level 1)		(Level 2)		(Level 3)		Total			
Investments MHA duration trust										
Intermediate duration trust	\$ -	\$	8,550,579	\$	-	\$	8,550,579			
Short duration trust	-		875,217		-		875,217			
Total	\$ -	\$	9,425,796	\$	-	\$	9,425,796			

The fair value of the MHA investment pools are based on the closing price reported on the active market on which the individual funds are traded, and the fair value is allocated to the Hospital based on unit ownership. Therefore, investments are considered a Level 2 category.

#### Note 10. Risks and Uncertainties

The Patient Protection and Affordable Care Act ("ACA") is the comprehensive healthcare reform bill passed by Congress in March 2010. The law reshapes the way healthcare is delivered and financed by transitioning providers from a volume-based fee-for-service system toward value-based care. Several legal challenges have been made against the legislation since it was enacted, and uncertainty exists as to the ultimate impact of the legislation on the healthcare delivery system. Potential impacts of healthcare reform include political uncertainty and volatility in Medicare and Medicaid reimbursement, fundamental changes in payment systems, increased regulation and significant required investments in healthcare information technology.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees South Sunflower County Hospital Indianola, Mississippi

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of South Sunflower County Hospital (the "Hospital"), as of September 30, 2019, and the related notes to the financial statements, which collectively comprise the Hospital's basic financial statements and have issued our report thereon dated January 29, 2020.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hospital's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hospital's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Hospital's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Ridgeland, Mississippi January 29, 2020
